Uvod

Nedelja privatnosti je godišnji događaj koji se održava tokom poslednje nedelje januara u Beogradu, povodom obeležavanja Dana zaštite podataka o ličnosti (28. januara). Nedelja privatnosti prvi put je održana 2021. godine, 10 godina nakon što su Partneri Srbija, zajedno sa Poverenikom za informacije od javnog značaja i zaštitu podataka o ličnosti, prvi put u Srbiji obeležili Dan zaštite podataka o ličnosti.

Nedelja privatnosti stavlja u fokus pitanja privatnosti i zaštite podataka o ličnosti, kroz diskusiju sa stručnjacima iz civilnog, privatnog i javnog sektora. Događaj se organizuje kako bi se unapredilo razumevanje javnosti o izazovima u oblasti zaštite prava na privatnost i stvorio prostor za diskusiju o unapređenju zaštite prava na privatnost građana.

Cilj Nedelje privatnosti je da pruži pregled dostignutih standarda u oblasti privatnosti i zaštite podataka o ličnosti, problema u primeni postojećeg pravnog okvira, kao i da predloži rešenja koja mogu pomoći da se unapredi trenutno stanje u ovoj oblasti. Nedelja privatnosti svake godine u fokus stavlja upotrebu novih tehnologija i međunarodne trendove koji imaju uticaj na ostvarivanje i zaštitu prava na privatnost.

Nedelja privatnosti 2024 održava se od 24. do 26. januara 2024. godine.

Kroz seriju panela, okruglih stolova, radionica i prezentacija, stvaramo prostor u kome predstavnici javnog, civilnog i privatnog sektora, kao i šira javnost, mogu da razgovaraju, povećaju međusobno razumevanje i iniciraju promene u oblasti zaštite privatnosti.

Introduction

Privacy Week is an annual event held during the last week of January in Belgrade, Serbia, in order to mark the Data Protection Day (28 January). It was established in 2021, 10 years after Partners Serbia, together with the Commissioner for Access to Information of Public Importance and Personal Data Protection, marked the Data Protection Day for the first time in Serbia. The event centers around discussions on privacy and data protection issues with experts from the civil, private, and the public sector.

The event is organized to increase the public's understanding of the variety of issues facing citizens' right to privacy, how to defend citizens' right to privacy, and larger discussions about the state of privacy protection within Serbia and globally. Privacy Week gives public officials, civil society, the private sector, and the public space to discuss, increase mutual understanding, and initiate change.

The aim of Privacy Week is to provide an overview of the achieved standards and problems in the implementation of the existing privacy and personal data protection legal framework, as well as to propose solutions that can help improve the current state of affairs in this area. Every year, Privacy Week focuses on the use of new technologies and international trends that have an impact on the exercise and protection of the right to privacy.

Privacy Week 2024 takes place from 24 to 26 January, 2024. Through a series of panels, round tables, workshops and presentations, we create a space where representatives of the public, civil, and private sector, as well as the interested public can talk, increase mutual understanding, and initiate changes in the field of privacy protection.

Ovaj događaj je podržan od strane Ambasade Holandije u Republici Srbiji, Ministarstva spoljnih poslova Kraljevine Norveške, Američkog udruženja pravnika (ABA) i Fondacije za otvoreno društvo, Srbija.

Medijski partneri događaja: dnevni list Danas, televizija N1, i magazin Nedeljnik.

Pregled panela i govornika predstavljen je u nastavku.

This event is supported by the Embassy of the Netherlands in the Republic of Serbia, the Norwegian Ministry of Foreign Affairs, American Bar Association and the Society Foundation, Serbia.

Media partners of the event: Danas, TV N1, and Magazine Nedeljnik.

The program of the event is available below.

I dan, sreda, 24.01.2023.

I panel: Izaberi privatnost - uloga ličnih podataka u globalnoj izbornoj godini

Moderatorica: **Kristina Obrenović**, koordinatorka projekata, Partneri Srbija

Panelisti: **Dorđe Bojović**, savetnik za Zapadni Balkan, Evropski parlament, **Tijana Cvjetićanin**, programska direktorka, UG "Zašto ne?", Bosna i Hercegovina, **Angela Trajić**, članica pravnog tima, organizacija CRTA, **Goran Rizaov**, programski menadžer za medije i demokratiju, Metamorphosis Fondacija, Severna Makedonija, **Montserrat Legorreta**, programska saradnica, Global Network Initiative.

U toku 2024. godine više od polovine građana na svetu imaće pravo da glasa. U doba digitalizacije i procvata društvenih mreža izborna prava i pravo na privatnost građana značajno su ugroženi. Demokratije počivaju na sposobnosti sprovođenja fer izbora, slobodnih od bilo kakvog oblika mešanja ili uticaja. Društvene mreže se u svetu godinama koriste da utiču na volju birača. U Srbiji su u decembru 2023. održani izbori, tokom kojih je zabeležen veliki broj nepravilnosti i zloupotreba prava građana. Panel "Izaberi privatnost" fokusiraće se na zloupotrebu ličnih podataka građana u izbornim procesima. Tokom panela razgovaraćemo o izazovima u oblasti zaštite ličnih podataka, dezinformacijama i uticaju velikih platforma i društvenih mreža na volju birača, pravnom okviru EU i efektima EU propisa na Srbiju i druge zemlje regiona, i drugim temama od značaja za zaštitu privatnosti građana i zaštitu izbornih prava. Panelisti će biti stručnjaci iz oblasti izbornog zakonodavstva, zaštite ličnih podataka, zaštite digitalnih prava i drugi.

Panel I: Privacy – Role of Personal Data in the Global Election Year

Moderator: **Kristina Obrenović**, Researcher, Partners Serbia

Panelists: **Dorđe Bojović**, Western Balkans Advisor, European Parliament, **Tijana Cvjetićanin**, Program Director, "Why Not?" Bosnia and Hercegovina, **Angela Trajić**, Member of the legal team, CRTA, **Goran Rizaov**, Programme Manager for Media for Democracy, Metamorphosis, **Montserrat Legorreta**, Program and Operations Associate, Global Network Initiative.

The election process stands threatened by social media manipulation. In the area of digital platforms, the freedom of choice and the right to privacy are vastly endangered. Democracies are postulated upon their ability to carry out fair elections, free from any form of interference or manipulation. Social media has been reportedly used to distort public opinion nearing election events in the United States and beyond. During 2024, more than half of the world's population will have the opportunity to vote in different elections. In Serbia, elections were held in December of 2023 with many irregularities and abuses of citizens' rights. The panel, "Choose Privacy" will be focused on the use of personal data for political campaign purposes. The panel will explore how disinformation is spread online during election campaigns and how the misuse of citizens' personal data can change or influence their political decisions. Panelists will be experts in the fields of combating online disinformation, protecting digital rights, privacy data protection, and others.

II panel: Cena privatnosti

Moderatorica: **Dragana Žarković Obradović**, direktorka Balkanske istraživačke mreže (BIRN)

Panelisti: **Tanja Maksić**, koordinatorka projekata, BIRN, **dr Aleksandra Krstić**, vanredna profesorka, Fakultet političkih nauka Univerziteta u Beogradu, **Jovana Gligorijević**, novinarka, Nedeljnik "Vreme", **Petar Jeremić**, menadžer za etiku, Wireless Media Group, **Brankica Janković**, Poverenica za zaštitu ravnopravnosti.

Mediji sve agresivnije zadiru u privatnost građana, objavljivanjem ličnih podataka kada za to nema javnog interesa. Posledice ovako teških povreda novinarske etike, posebno kada se dešavaju u onlajn sferi, su akutne i dugotrajne. Slučaj dva masovna ubistva, u osnovnoj školi Vladislav Ribnikar i u okolini Mladenovca, najdrastičnije svedoče o ovom negativnom trendu, a izveštavanje medija u nedeljama nakon masovnih ubistava bilo je predmet detaljne analize čije ćemo rezultate predstaviti na panelu. Stalni medijski monitoring BIRN-a zabeležio je i pogoršanje negativnih trendova koji se iz godine u godinu ponavljaju, uključujući instrumentalizaciju medija zarad političkih ili drugih interesa i curenje informacija iz institucija. Koja su još drastična kršenja zabeležena, koje su posledice ovakvog izveštavanja po kvalitet informisanja, da li je kršenje privatnosti podstaknuto klikovima i digitalnim okruženjem, pitanja su za diskusiju na ovom panelu.

Dragana Obradović je direktorka Balkanske istraživačke mreže u Srbiji (BIRN Srbija), medijske organizacije koja okuplja vodeće istraživačke novinare, i istraživače u oblasti razvoja medijskog sektora. Tokom njenog mandata, BIRN je postao prepoznatljiv po profesionalizmu i uticaju u oblasti razvoja medija i vladavine prava. Redak-

Panel II – The Price of Privacy

Moderator: **Dragana Žarković Obradović**, Executive Director, Balkan Investigative Reporting Network (BIRN)

Panelisti: **Tanja Maksić**, Project Coordinator, BIRN, **dr Aleksandra Krstić** Ph.D., Faculty of Political Science, University of Belgrade, **Jovana Gligorijević**, Journalist, "Vreme" Weekly, **Petar Jeremić**, Ethical Standard Manager, Wireless Media Group Commissioner for the protection of equality (TBC), **Brankica Janković**, Commissioner for the protection of equality (TBC).

The media is increasingly endangering the citizens' privacy by publishing personal data when there is no public interest in doing so. The consequences of such serious violations of journalistic ethics, especially when they occur in the online sphere, are acute and long-lasting. The case of two mass shootings, in the elementary school Vladislav Ribnikar and in the vicinity of Mladenovac, are the most drastic examples of this negative trend. The media coverage on Sunday after the mass murders was the subject of a detailed analysis, the results of which we will present on the panel. BIRN's constant media monitoring has also recorded the worsening of negative trends that are repeated year after year, including the instrumentalization of the media for political or other interests and the leaking of information from institutions. Some of the questions to be discussed on this panel will include, what other drastic violations have been noticed, what are the consequences of such reporting on the quality of media information, whether the violation of privacy is encouraged by clicks and the digital environment, and more.

cija BIRN-a dobitnik je brojnih domaćih i međunarodnih novinarskih nagrada.

Tanja Maksić, program koordinator, članica je tima BIRN Srbija od 2010. godine. Osmišljava i vodi projekte iz oblasti medijskih politika i dobrog upravljanja. II panel: Nasilje prouzrokovano deljenjem privatnih sadržaja žrtava

Moderatorica: **Andela Milivojević**, istraživačka novinarka

Uvodna prezentacija: **Andela Milivojević**

Panelisti: **Vanja Macanović**, advokatkinja, Autonomni ženski centar, **Dijana Popović Gavranović**, načelnica Stručne službe Vrhovnog državnog tužioca Crne Gore, **Aleksandra Zorić**

Odluka tužilaštva da odbaci krivičnu prijavu u slučaju deljenja eksplicitnih fotografija i snimaka na Telegram grupi “Nišlijke”, aktualizovala je pitanje procesuiranja osvetničke pornografije. Novinarka koja je istraživala ovaj fenomen u Srbiji i mapirala još 16 Telegram grupa koje bez pristanka dele eksplicitan seksualni sadržaj, **Andela Milivojević**, podeliće svoja iskustva i savete za rad na ovoj osetljivoj temi. U nastavku panela razgovaraćemo o posledicama osvetničke pornografije, stigmatizaciji žrtava, mogućnosti da se ovakav sadržaj ukloni sa interneta i da se počinioci procesuiraju, sistemskom neuspehu da se žrtve zaštite i potencijalnim rešenjima, kao i o iskustvima zemalja u regionu koje su uspele da kriminalizuju osvetničku pornografiju.

Andela Milivojević je višestruko nagrađivana istraživačka novinara iz Beograda. **Andela** je bila deo tima Centru za istraživačko novinarstvo Srbije - CINS, a danas radi za BBC World Service, a saraduje sa više medija iz Srbije i regiona. Panelisti: **Vanja Macanović**, Attorney-at-law, Autonomni ženski centar, **Dijana Popović Gavranović**, Head of the Expert Service of the Supreme State Prosecutor of Montenegro, **Aleksandra Zorić**

The prosecutor's office's decision to dismiss the criminal complaint in the case of sharing explicit photos and videos in the Telegram group “Nišlijke” brought up the issue of processing revenge pornography. A journalist who investigated this phenomenon in Serbia and mapped 16 other Telegram groups that share explicit sexual content without consent, **Andela Milivojević**, will share her experiences and tips for working on this sensitive topic. During the panel, we will also discuss the consequences of revenge pornography, the stigmatization of victims, the possibility of removing such content from the internet and prosecuting the perpetrators, the systematic failure to protect victims, potential solutions, and the experiences of countries in the region that have succeeded in criminalizing revenge pornography.

Andela Milivojević is an investigative journalist from Belgrade and a recipient of multiple awards. **Andela** was a member of the Center for Investigative Journalism of Serbia – CINS team, and she now works for the BBC World Service and cooperates with several media from Serbia and the region. Panel I: Future of digital surveillance

Moderator: **Uroš Mišljenović**, Program Coordinator, Partners Serbia

Panelists: **Aleksa Tešić**, Journalist, BIRN , **Apostolos Fotiadis**, Freelance Researcher/Journalist, Greece , **Filip Milošević**, Activist, Share Foundation , **Andrijana Ristić**, Associate, Belgrade Centre for Security Policy

Different types of surveillance equipment and tools have become easily accessible to governments and to individuals throughout the world. Journalists, activists, and political figures have been subject to surveillance in both autocratic and democratic societies. The question remains whether the digital surveillance technologies have become an integral part of modern governing. Therefore, the focus of this panel will be on modern forms of digital surveillance, such as video surveillance with biometric facial recognition, software for extracting data from mobile phones and computers of citizens, tools for monitoring the activities of citizens when using the internet, AI-driven data analytics, etc, and their impact on privacy. Panellists will discuss the legality, the ethics of using these systems, and their impact on the rights and freedoms of citizens.

Uroš Mišljenović has been working at Partners Serbia since 2011. As the program manager on privacy, good governance and civil society development, Uroš has developed and conducted a series of studies on the implementation of the legal framework on personal data protection in Serbia and held several trainings for representatives of the public, civil and private sectors in this

II Panel: Zaštita privatnosti u eri generativne veštačke inteligencije – gde se inovacije susreću sa zakonom, etikom i moralom

Moderator panela: **Predrag Topić**, konsultant, Direktor razvoja poslovanja, Things Solver

Panelisti: **Irina Buzu** – delegat Saveta Evrope i savetnica Zamenika premijera u Ministarstvu za ekonomski razvoj i digitalizaciju, Moldavija, **Dr Aleksandar Veljković**, asistent na Matematičkom fakultetu Univerziteta u Beogradu, **Marija Vlajković**, advokatkinja, članica Udruženja za usklađenost u poslovanju.

Nakon početne globalne pompe oko ChatGPT-a i celokupnog pojma generativne veštačke inteligencije, pojavila su se različita pitanja vezana za zakonitost i etičnost ovih modela. Jedno od ključnih pitanja odnosi se na zakonitost obrade ličnih podataka koji se koriste za obuku ovih modela, posebno kada sadrže osetljive podatke građana. Ovim problemom bavila se italijanska agencija za zaštitu ličnih podataka (Garante) koja je u martu 2023. ograničila obradu ličnih podataka italijanskih građana od strane OpenAI. Panel će se baviti pitanjima privatnosti vezanim za razvoj i upotrebu generativnih AI modela. Posebno će se istražiti da li je bitka za privatnost već izgubljena široko rasprostranjenom upotrebom veštačke inteligencije i da li postoji prostor da se uvede ravnoteža između zakonitosti, etike i morala u razvoju ovih modela, bez sprečavanja daljeg tehnološkog razvoja i inovacija.

Predrag Topić (consultant, Head of Business Development, Things Solver) poseduje preko 15 godina relevantnog poslovnog iskustva. U karijeri je imao fokus na razvoj poslovanja vodeći različite kompanijske poslove i projekte koji su bili na preseku oblasti strategije, poslovnih modela,

Panel II: Protection of Privacy in Generative AI – where innovation meets law, ethics and morality

Moderator: **Predrag Topic**, consultant, Head of Business Development, Things Solver

Panelisti: **Irina Buzu** – CAI delegate, Advisor to the Deputy Prime Minister, Government of the Republic of Moldova, **Dr Aleksandar Veljković**, Senior researcher, “Attic 42” and “3327 R&D”, **Marija Vlajković**, Attorney-at-law, member of the Compliance Association of Serbia.

Following the initial global hype over ChatGPT and the overall notion of generative AI, various issues related to the legality and ethics of these models arose. One of the key questions is related to the legality of processing of personal data used to train these models, especially when they contain sensitive data of individuals. The questions were, at least temporarily, addressed by the Italian Data Protection Authority (the Guarantee) that in March 2023 limited the processing of personal data of Italian citizens by OpenAI. Therefore, this panel will address the privacy concerns related to the development and use of generative AI models. It will specifically explore whether the battle for privacy has already been lost with the widespread use of generative AI and whether there is a space to introduce a balance between legality, ethics, and morality in developing these models without preventing further technological development and innovation.

Predrag Topić (consultant, Head of Business Development, Things Solver) has more than 15 years of relevant business experience. During his career, he focused on the development of business operations, heading different company activities and projects which were at the intersection of

potrošača, podataka i tehnologija. Radio je na različitim izvršnim i upravljačkim pozicijama u kompanijama British American Tobacco i Confluence Property Management, a od 2019. godine je direktor i suvlasnik DX Lab-a, nezavisne konsultantske firme koja pomaže organizacijama da digitalno transformišu, ubrzaju i razviju svoje poslovanje. Od 2021. je angažovan i kao Head of Business Development and Sales mladog srpskog AI scale-upa Things Solver, gde je odgovoran za širenje i razvoj poslovanja, kao i podršku klijentima da se digitalno transformišu pomoću tehnologija baziranih na podacima.

Budućnost je već tu – razgovor sa dr Ann Cavoukian, izvršnom direktorkom Globalnog centra za privatnost i bezbednost po dizajnu (Global Privacy and Security by Design Center), i bivšom Poverenicom za privatnost i informacije države Ontario

Moderatorka: **Nevena Ružić**, ekspertkinja u oblasti zaštite privatnosti

Nevena Ružić je dugogodišnja konsultantkinja za zaštitu podataka o ličnosti, bezbednost podataka, slobodu informacija i izražavanja, u zemlji i inostranstvu. Od 2022. je na listi eksperata Saveta Evrope za oblast zaštite podataka o ličnosti. Više od 10 godina bila je pomoćnica generalnog sekretara Službe Poverenika za informacije od javnog značaja i zaštitu podataka o ličnosti, zadužena za usaglašenost propisa i prakse. Koautorka je edukativnih epizoda "Šoljica privatnosti sa Jelenom i Nevenom" dostupnih na YouTube i Vimeo.

Dr. Ann Cavoukian je priznata kao jedna od vodećih svetskih stručnjakinja za privatnost. Dr Cavoukian je u dosad nezabeležena tri mandata bila komesarka za informacije i privatnost kanadske pokrajine Ontario. Tamo je izradila okvir Integrisana privatnost (Privacy by Design), koji ima za cilj da proaktivno ugradi privatnost u specifikacije projekata informacionih tehnologija, umrežene infrastrukture i poslovne prakse, čime se postiže najjača moguća zaštita. Tokom 2010. godine, međunarodni regulatori privatnosti jednoglasno su doneli Rezoluciju o priznavanju integrisane privatnosti kao međunarodnog standarda. Od tada je ovaj okvir preveden na 40 jezi-
